Villa Katya is located on a plot of 885 m2. The modern style house has basement, ground floor and first floor. The facade of the villa has straight shapes where an open space is created that lets in a lot of light. The building consists of three floors with covered and uncovered terraces, large windows increase the extension of natural lighting and open the stunning views of the sea. The villa includes 4 bedrooms, 4 bathrooms and 2 toilets. On the ground floor we find a bedroom, the kitchen and a large living room that opens to the chill out area next to the overflowing pool and jacuzzi. The project is designed by the architecture firm Rgb Architects.
